

# Vision Statement

- Ø Steeton with Eastburn is a community where people are tolerant and neighbourly and value the environment in which they live.
- Ø Steeton with Eastburn should be a community which offers a real quality of life to all its residents young and old, regardless of wealth, interests and location.
- Ø Good transport links, affordable housing, effective communication, accessible information and a rich social and civic life are all essential components of this quality of life.
- Ø The parish supports local enterprise and businesses. The schools are a key element of the village communities and should play a central role in village life.
- Ø The villages offer access to the cultural, economic and social life of the area and region, and seek to work in partnership with other communities, agencies and organisations to foster better links, greater co-operation and wider opportunities for all.
- Ø There is a challenge to make the most from the various and sometimes fragmented components of village life.
- Ø People in Steeton with Eastburn want a safe, viable, clean and green local community and environment which can grow without losing its distinctive, friendly and welcoming character.

The Lord Mayor of Bradford, Councillor Binney, opens the refurbished Keighley Road Recreation Ground
